LIMITED WARRANTY

1. 1. Nighthawk Artisan Inc. warrants its products against defects in material and workmanship for a period of 90 days from the date of original shipment by Nighthawk Artisan. (Walkers, Commodes & Pool chairs are subject to the warranty included with the product.) This warranty is limited, at Nighthawk Aritsan's option, to the repair or replacement of, or issuing of a credit for, any defective equipment or part covered by this limited warranty. Nighthawk Artisan shall have the right to require that the defective product(s) be returned to Nighthawk Artisan with transportation being prepaid by the person claiming under the warranty. Nighthawk Artisan's liability is limited to the amount charged by Nighthawk Aritsan for the defective product and this warranty does not include transportation charges and labor cost for removal or reinstallation.

2. Not withstanding the above limited warranty, Nighthawk Artisan will have no liability, whatsoever, if any defect in a product is found to have resulted from the improper storage, use or service of the product, including but not limited to storage, use or service not consistent with Nighthawk Artisan's instructions and recommendations, if any. In addition, Nighthawk Artisan shall be without liability for any defect in any product which Nighthawk Artisan, in its opinion, determines has resulted from the product being installed, repaired or altered by someone other than Nighthawk Artisan, or has resulted from misuse, negligence or accident other than by Nighthawk Artisan. Nighthawk Artisan also will be without liability in the event the person claiming under this limited warranty fails to deliver notice of the alleged defect to Nighthawk within 90 days from the date of original shipment by Nighthawk Artisan or within thirty days after the defect was or reasonably should have been discovered, whichever is earlier.

3. Nighthawk Artisan Inc. does not warrant the merchantability or fitness for any particular purpose of its products and does not make any warranty, express or implied, other than the limited warranty contained herein.

4. Nighthawk Artisan Inc. shall in no event be liable for any damages or losses arising from the loss of use of the product, any commercial loss or consequential damages arising from a defect in the material and/or workmanship covered under this warranty, or any damage to any other part of any installation of which a Nighthawk Artisan product is a part.

5. Nighthawk Artisan Inc. reserves the right to make changes in design or improvement in its products without notice and without the obligation to incorporate the same in any product previously manufactured.

GARANTIE LIMITÉE

1. Nighthawk Artisan Inc. garantit ses produits contre les défauts de matériaux et de fabrication pendant une période de 90 jours à compter de la date d'expédition initiale par Nighthawk Artisan. (Les déambulateurs, les chaises d'aisance et les chaises de piscine sont soumis à la garantie incluse avec le produit.) Cette garantie est limitée, au choix de Nighthawk Artisan, à la réparation ou au remplacement de, ou à l'émission d'un crédit pour, tout équipement défectueux ou pièce couverte par cette garantie limitée. Nighthawk Artisan se réserve le droit d'exiger que les produits défectueux soient retournés à Nighthawk Artisan avec les frais de transport payés à l'avance par la personne réclamant la garantie.

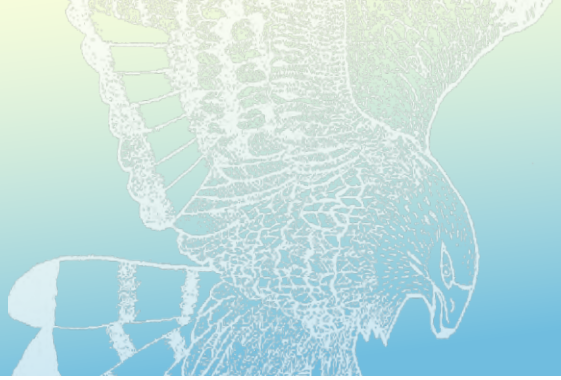

2. La responsabilité de Nighthawk Artisan est limitée au montant facturé par Nighthawk Artisan pour le produit défectueux et cette garantie n'inclut pas les frais de transport et les coûts de main-d'œuvre pour le retrait ou la réinstallation. Nonobstant la garantie limitée ci-dessus, Nighthawk Artisan n'aura aucune responsabilité, quelle qu'elle soit, si un défaut d'un produit est constaté comme résultant d'un stockage, d'une utilisation ou d'un service inapproprié du produit, y compris mais sans s'y limiter, le stockage, l'utilisation ou le service non conforme aux instructions et recommandations de Nighthawk Artisan, le cas échéant. De plus, Nighthawk Artisan ne sera pas responsable de tout défaut de tout produit que Nighthawk Artisan, à son avis, détermine comme résultant du produit étant installé, réparé ou modifié par une personne autre que Nighthawk Artisan, ou résultant d'une mauvaise utilisation, de la négligence ou d'un accident autre que par Nighthawk Artisan. Nighthawk Artisan ne sera également pas responsable si la personne réclamant en vertu de cette garantie limitée ne livre pas l'avis du défaut présumé à Nighthawk dans les 90 jours suivant la date d'expédition initiale par Nighthawk Artisan ou dans les trente jours suivant la découverte du défaut ou lorsqu'il aurait raisonnablement dû être découvert, selon ce qui est le plus tôt.

3. Nighthawk Artisan Inc. ne garantit pas la qualité marchande ou l'adéquation à un usage particulier de ses produits et ne fait aucune garantie, expresse ou implicite, autre que la garantie limitée contenue dans le présent document.

4. Nighthawk Artisan Inc. ne sera en aucun cas responsable des dommages ou pertes résultant de la perte d'utilisation du produit, de toute perte commerciale ou des dommages indirects résultant d'un défaut de matériau et/ou de fabrication couvert par cette garantie, ou de tout dommage à toute autre partie de toute installation dont un produit Nighthawk Artisan fait partie.

5. Nighthawk Artisan Inc. se réserve le droit d'apporter des modifications dans la conception ou l'amélioration de ses produits sans préavis et sans l'obligation d'incorporer les mêmes dans tout produit fabriqué précédemment.

Ovation® Gel
Memory® Plus

Ovation Gel cushion is an innovative cushion, with a multi- bearing surface made from high density PU/Memory foam and gels

- For those at moderate to high risk of pressure sores
- The viscoelastic fluid gel (white gel) ensures maximum reduction of pressures on sensitive areas.
- The regular gel (blue gel) redistributes pressure to provide optimal therapeutic performance and comfort.
- Anatomical shaped foam is molded with the gels. This increases the contact surface and maximizes pressure reduction.
- The cushion's shape also provides greater stability and comfort. It also prevents sliding forward when seated, improving overall positioning

Pincore Supreme

· Pincore Foam is an open-cell natural latex product. The proteins that affect those with latex allergies are washed out of the foam, making it non-allergenic and safe for all users.
· Pincore Foam is breathable and hypoallergenic and it's structure helps to regulate temperature providing maximum comfort to the user.
· Optimal orthopedic support (naturally conforming to body contours)
· Luxurious resiliency and feel
· Enhanced breath ability
· Superior pressure relief that helps bring oxygen and nutrients to muscles

Sensus

Sensus foam has finer cells than other viscoelastic foams giving a softer, more luxurious feel. The Sensus foam achieves a smoother, more gradual shift in firmness that allows one to change position without hitting an uncomfortable barrier of hard, non responsive foam. Sensus foam also has a longer “Memory” due to it being able to retain its viscoelastic properties longer than conventional memory foam.

SCHWALBE

EST.1984

Schwalbe's new indoor wheelchair tire for sports is called Dunk King

- The tread is adapted to the camber of the wheels and offset accordingly. In addition, it does not extend over the entire width. This saves a lot of weight: the tire weighs only 230-265 grams.

- The properties of the newly developed rubber compound: low rolling resistance and high grip.

- The white tread leaves no marks on the hall floors, the sidewall was designed bordeaux red analogous to traditional basketballs.

Unmatched Benefits

the X-CORE 5 spoke wheels broad, smooth surface makes for easy cleaning and also makes removal and handling of the wheels so much easier than wire spoke wheels.

Distinctive Design:

Every Curve, arc and angle come together to maximize ride “feel,” strength and endurance attributes. Thanks to X-CORE wheel technology.

Unmatched Benefits

the X-CORE 5 spoke wheels broad, smooth surface makes for easy cleaning and also makes removal and handling of the wheels so much easier than wire spoke wheels.

Distinctive Design:

Every Curve, arc and angle come together to maximize ride “feel,” strength and endurance attributes. Thanks to X-CORE wheel technology.

Aero Lite Mag

The Aero Lite mag is made of a Magnesium/Aluminum mixture producing a lightweight mag that weights less then 2 LBS. This mag for all wheelchair users has gone through extensive testing. With a payload of 300LBS at 250,000 revolutions the Aero Lite mag passes with flying colours with less than 1000th of a millimetre out. The black metallic finish adds to the sleek look and makes for easy cleaning.

Aluminum Handrings

Our heat treated aluminum hand rings are virtually scratch-proof. After long periods of use, these heat treated rims are still aesthetically pleasing unlike regular aluminum hand rings. These tough long lasting rims are also cleaner for the end user, leaving no black marks on their hands like conventional aluminum does. They come in many different sizes fitting a large number of manufacturers wheels.

Ball bearings are used to provide smooth, low friction motion in rotary applications. Ball bearings are able to provide high performance and long lifetime in order to transfer the load from the balls to the inner races. The balls have minimal contact with the inner and outer races due to their spherical shape and this allows them to spin smoothly.

A disadvantage of ball bearings is that the balls can become "flattened" over time with too much pressure on the outer races leading to eventual failure. Therefore it is very important that the load ratings and other parameters are monitored regularly.

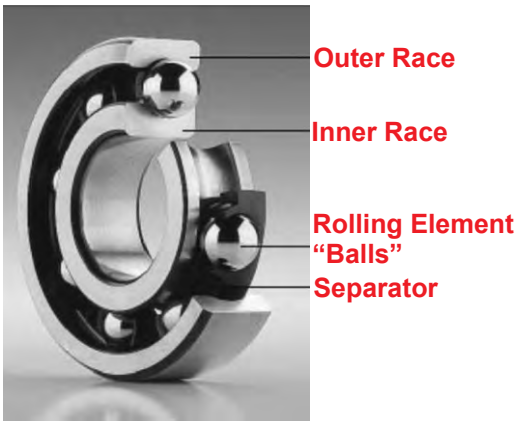

Parts

Ball bearings are composed of four main parts: two rings (or races) the rolling elements (the balls), and the ball separator (retainer).

Radial ball bearings and angular contact bearings have an inner and outer ring. Radial ball bearings and angular contact bearings are designed to support loads perpendicular to the axis of rotation, referred to as radial loads. The outer race mounts into a housing and is stationary. This part also aids in the transfer of the radial load from the bearing to the housing. The inner race mounts onto a rotating shaft and supports and guides the shaft during rotation.

Parts of a Ball Bearing

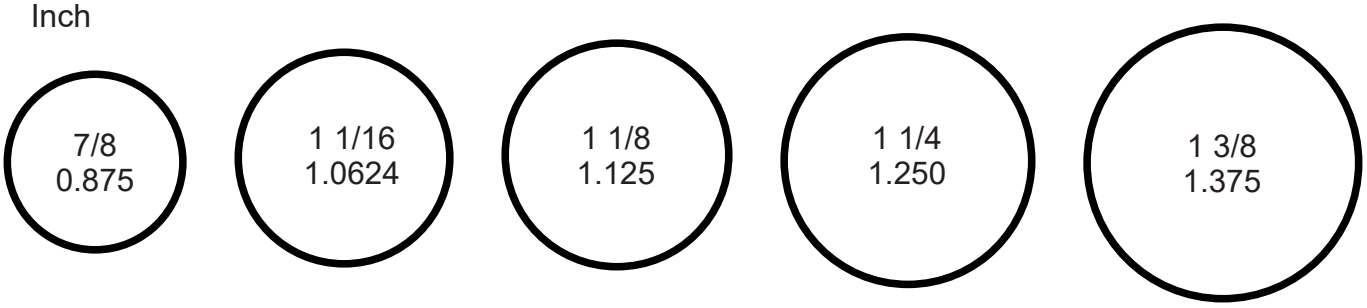

The rolling elements carry the load and distribute it throughout the raceways. The rolling elements rotate around the inner race, but not at the same speed as the rotation of the inner race.

The separator acts as a barrier between the balls preventing them from bumping into each other. Thrust bearings are designed to support loads parallel to the axis of rotation, referred to as axial loads. Thrust ball bearings have two rings of equal size.
